Distinctive Design

With its refined design, quiet confidence and understated sophistication, the L8 exudes a natural elegance. The result is an unmistakable presence – one that feels calm and considered rather than conspicuous.

L8

Elegant Side Profile

The clean, flowing lines are inspired by the agile posture of a leaping leopard. Semi-flush door handles create a composed silhouette, combining form and function effortlessly.

Distinctive Face

Elegant yet purposeful, the L8's striking front design features a unique diamond mesh grille – balancing confidence with restraint to make an immediate impression.

Signature Leopard's-Eye LED Headlights

Inspired by the shape of a leopard's eye, the precision headlights with adaptive high-beam lighting deliver a distinctive identity by day and assured visibility by night.

Full-width LED Taillight Signature

The sweep of the full-width rear light accentuates the L8's broad, confident stance, lending a sense of composure and contemporary elegance.

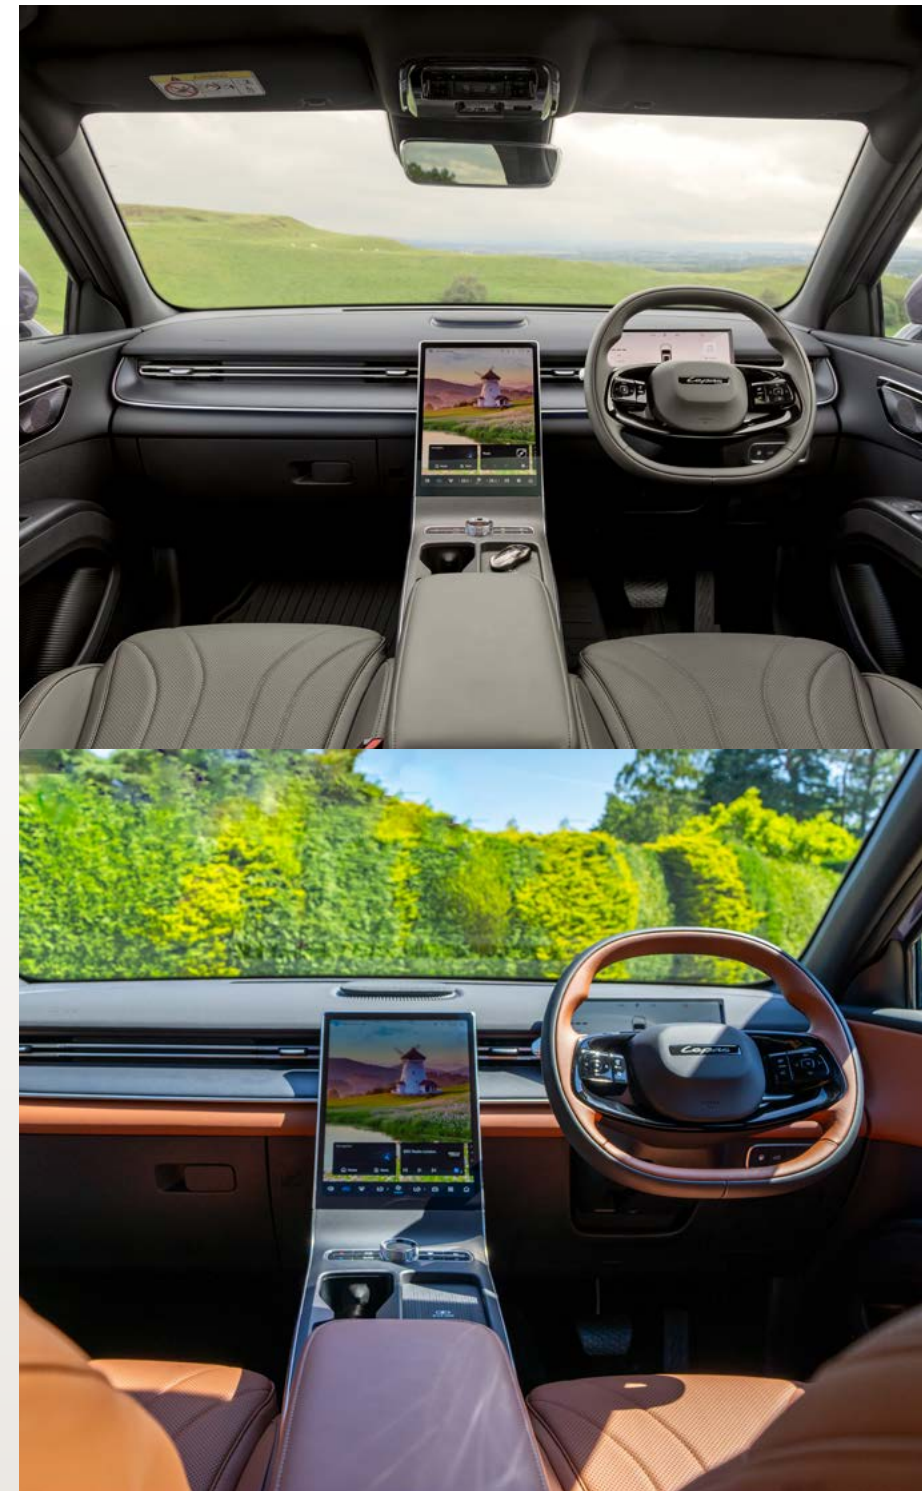

Contemporary Exterior Colours

A seven-layer paint process infuses aluminium flakes to provide rich, premium paint finishes that bring depth, warmth and refinement to every journey.

Curated exterior colours inspired by modern luxury, understated confidence and contemporary taste.

Elegant Interior Palettes

A selection of specially chosen colours designed to feel warm, modern and timeless.

Interior Elegance

Designed around comfort, wellbeing and quality of life, the L8 creates a spacious environment where every detail has been considered – one that gives a sense of calm and relaxation for everyone inside.

Class-Leading Size

With a class-leading 2800mm wheelbase, the L8 offers generous interior space designed to enhance comfort and make every trip more enjoyable for the whole family.

Comfort Lounge Seating

The front seats come with massage, ventilation and heating functions, as well as independent leg rests. The rear seats offer two-stage adjustment, providing exceptional comfort for every passenger.

Wrap-Around Cabin Design

Elegant lines and gentle curves offer a calming, driver-focused environment that feels intuitive, secure and thoughtfully designed.

Exceptionally Quiet Cabin

Thanks to multiple acoustic insulation treatments, noise from the outside world is minimised to create a remarkably quiet cabin, offering space to relax, think and enjoy the journey.

Intelligent Rapid Climate Control

Rapid cabin temperature regulation helps to create a comfortable cabin environment in every season, no matter how quickly the weather may change.

Active Fragrance System

The Active Fragrance System releases a premium fragrance when you enter the vehicle and automatically refreshes the scent every 30 minutes while driving.

Smart Storage Solutions

From a versatile cargo area to flexible seating configurations, thoughtful design helps maximize space for the items you bring along every day.

Breathe Easier on Every Journey

Designed to enhance cabin air quality, the Ion Air System helps keep the interior feeling fresh and comfortable, whether you're commuting or travelling longer distances.

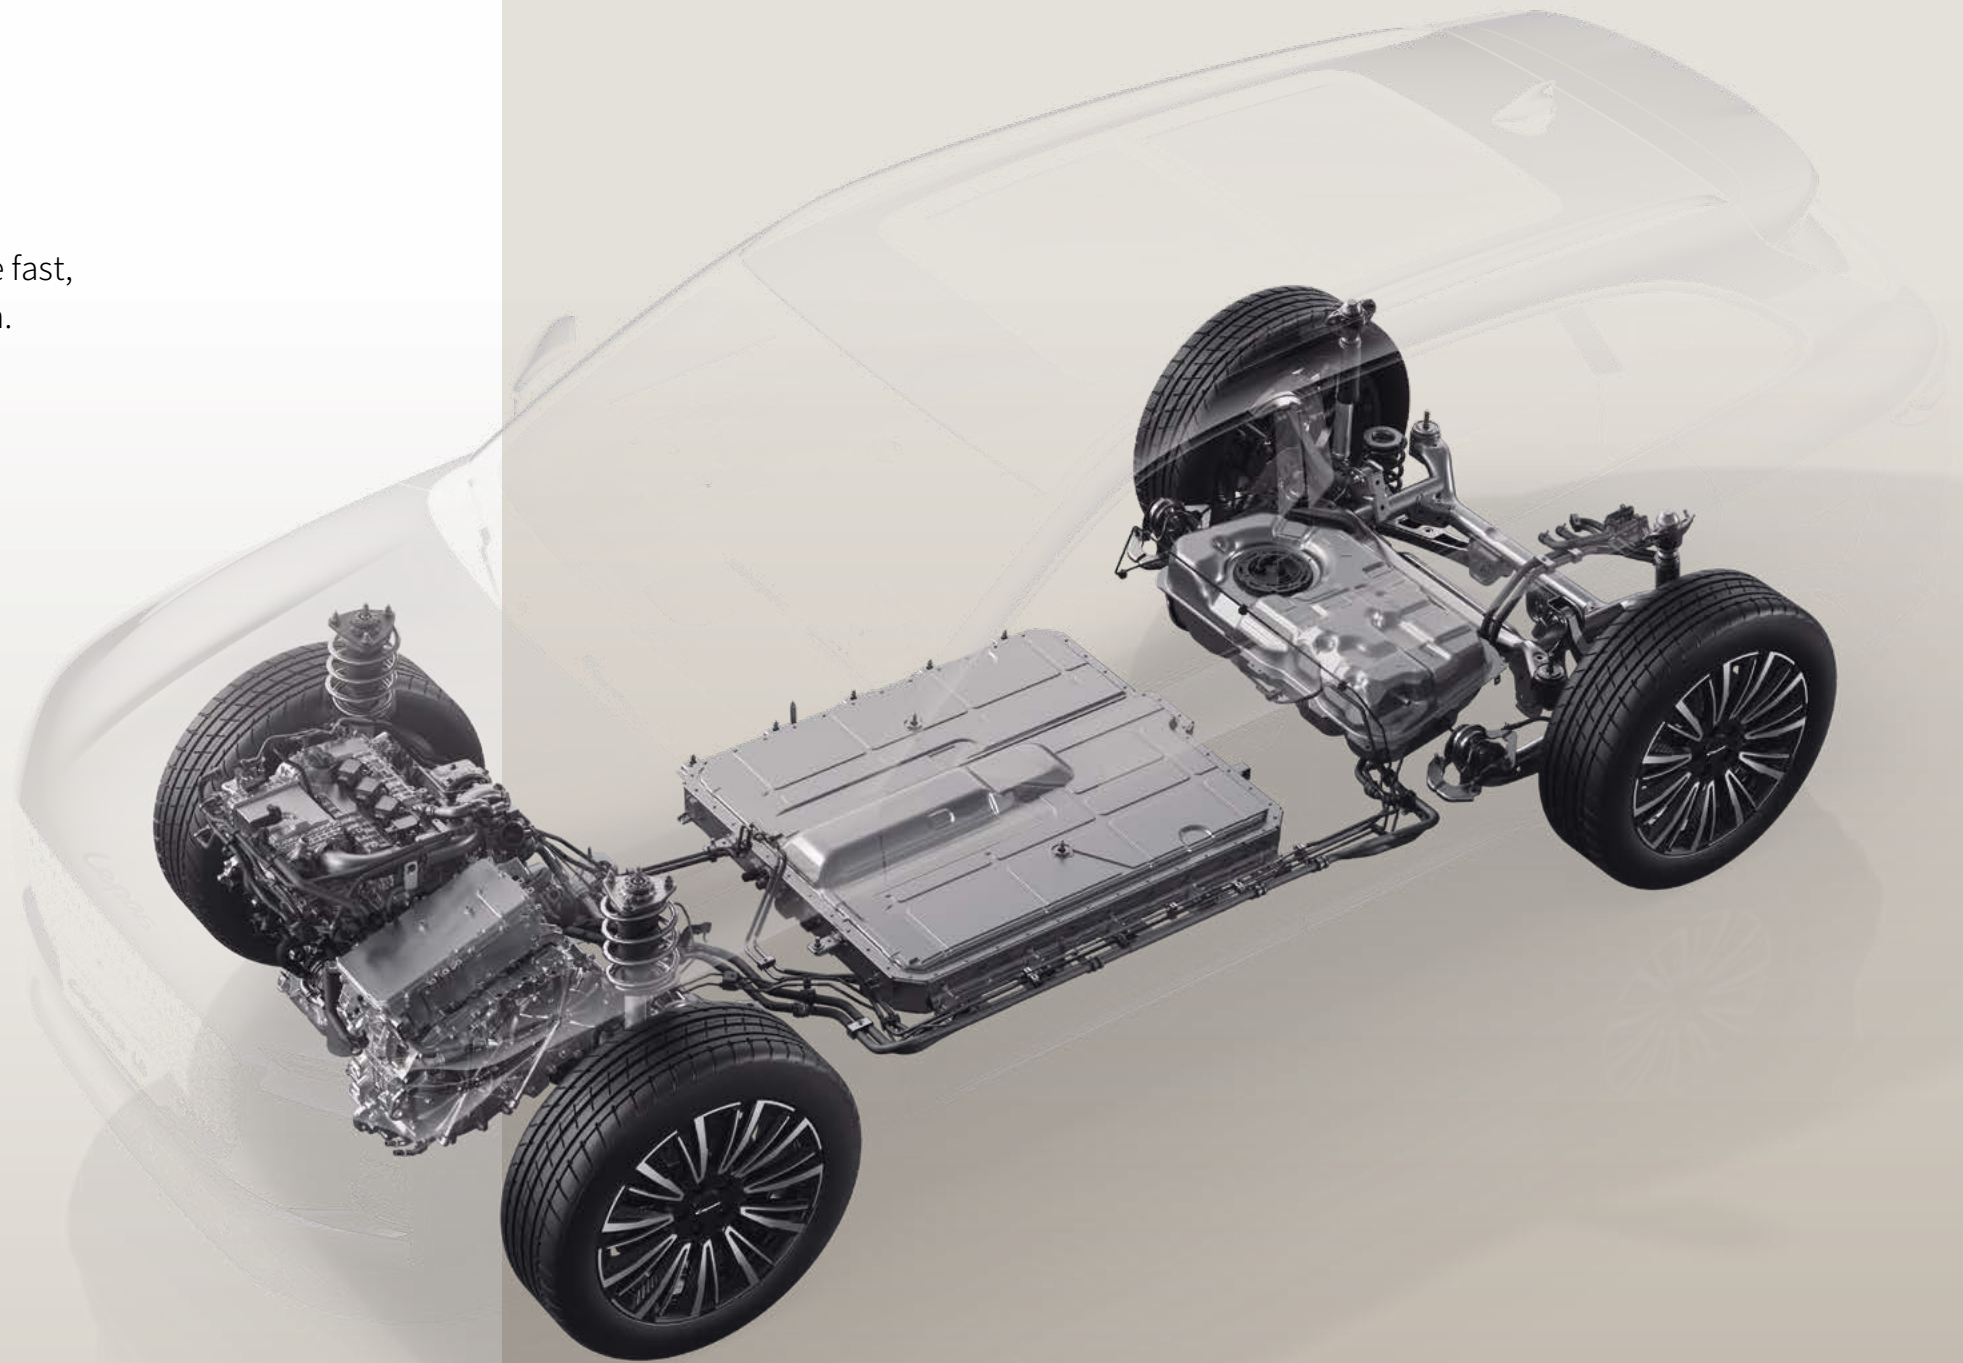

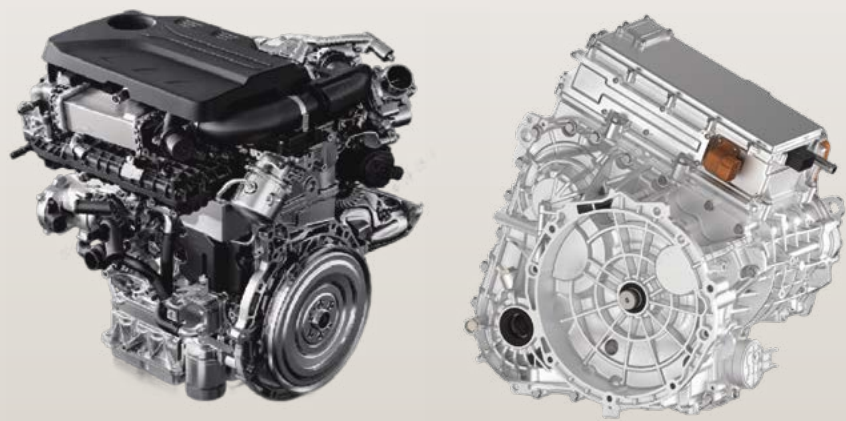

Versatile Rear Tray Table

This versatile tray table can be easily stowed away, enabling your passengers to adapt the cabin to their needs on any journey.

Range and Performance

This is an SUV that goes beyond the expected, in every sense. Its advanced hybrid powertrain delivers effortless efficiency, while fast, flexible charging helps keep you moving with minimal interruption. Smart technology that gives you the confidence to go further.

Extended Range Hybrid Efficiency

A highly efficient hybrid powertrain helps to reduce fuel consumption and maximise driving range. With up to 745 miles of combined range and up to 56 miles of pure electric driving, it offers the freedom to enjoy everyday journeys on electric power alone – plus the reassurance that you can take on longer trips whenever you need to.

279 Effortless Horsepower

The high-efficiency hybrid powertrain delivers smooth, responsive performance that feels natural and reassuring. It gives you confident, refined performance in everyday driving, powering you from 0 to 62mph in just 7.9 seconds.

Charging Convenience

Convenient overnight charging is designed to fit seamlessly into daily life. Simply plug in and wake up ready to go.

If you need to stop and power up, you can recharge from 30% to 80% in just 20 minutes with 40kW DC rapid charging, making it easier to fit charging around your day.

Compatibility with standard household sockets provides added flexibility and reassurance, giving you more charging options, wherever life takes you.

Power Your Life

The L8 can become your charging point, wherever you go. Its 6.6kW Vehicle-to-Load (V2L) capability can power a range of outdoor appliances, extending its usefulness beyond driving. A 2.2kW power outlet inside the cabin also provides convenient power for accessories.

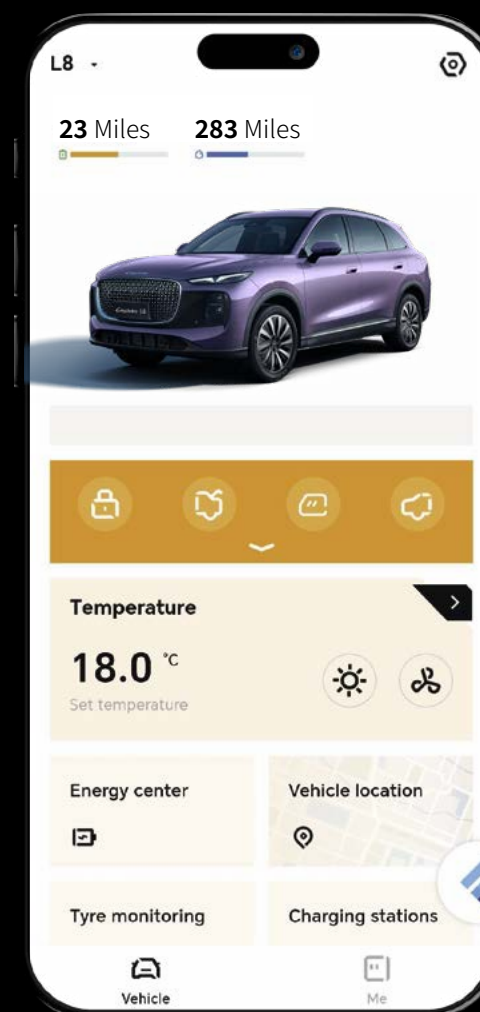

Intuitive Technology

This is technology designed around people, simplifying and enhancing everyday driving. Advanced, intuitive and reassuring, every innovation brings something positive for the driver without distracting from the journey.

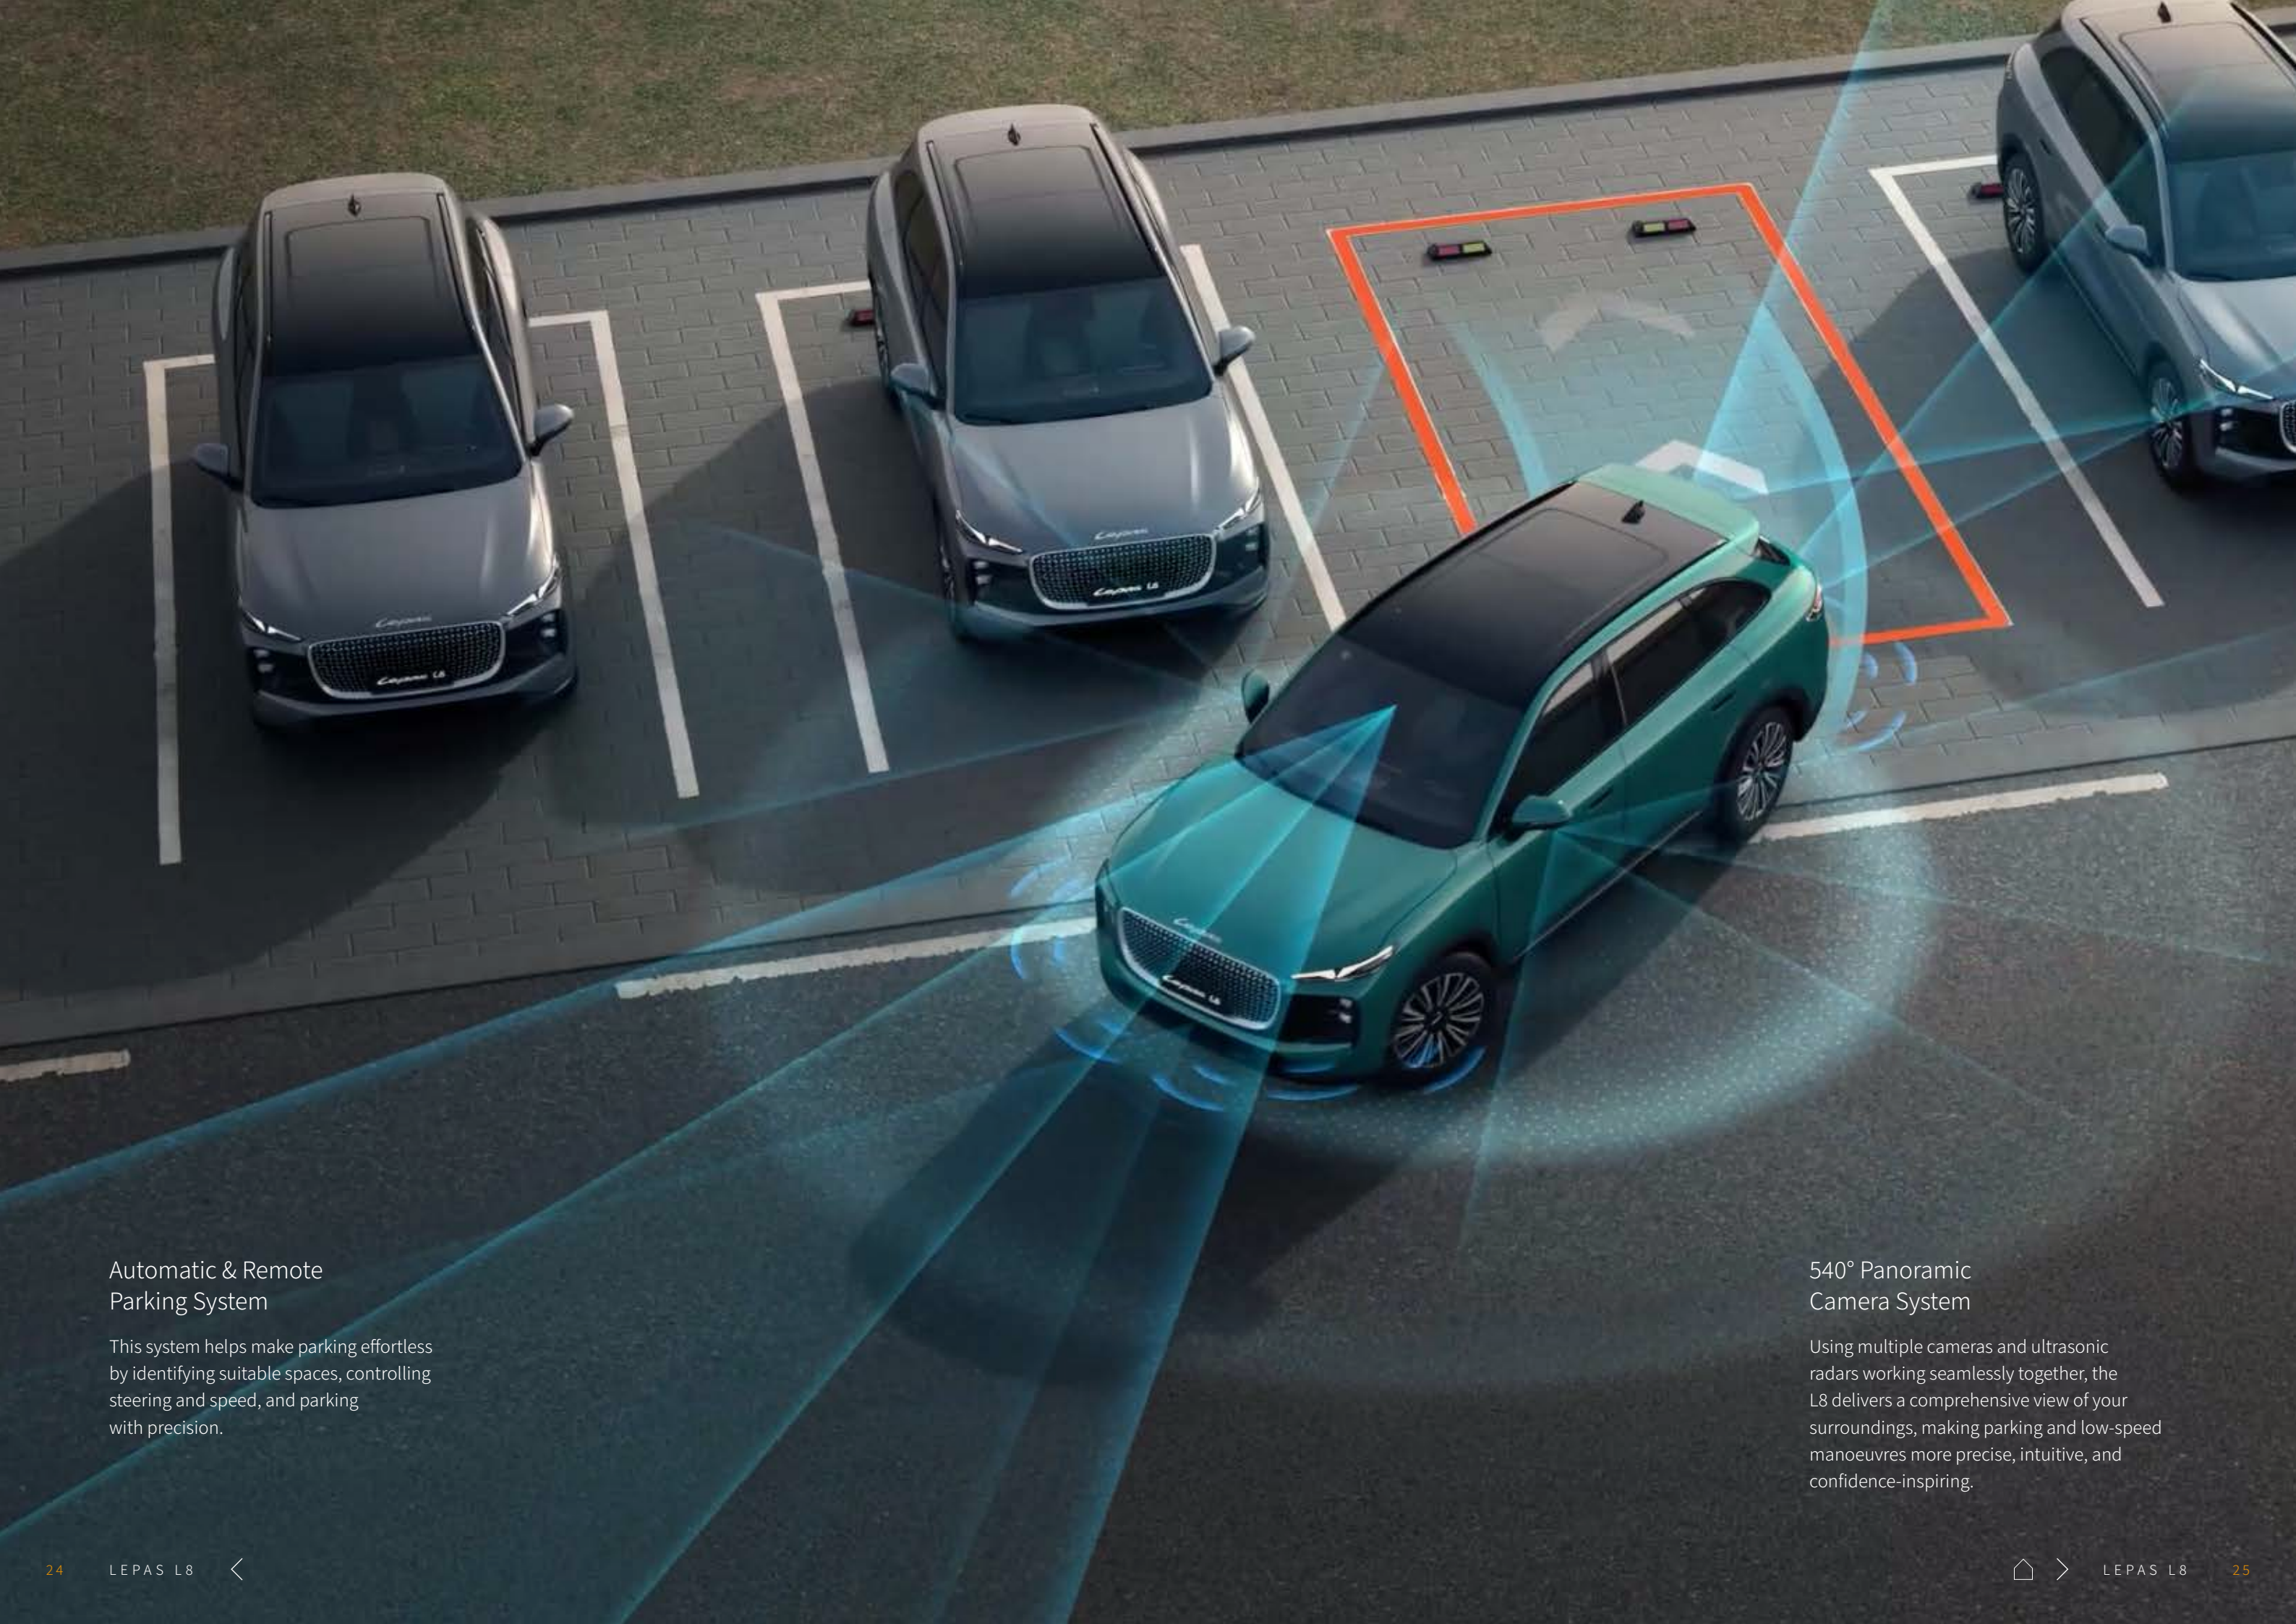

Intelligent Interactive Cockpit

Effortless technology, powered by a high-performance 8155 chip, a 13.2-inch touchscreen and intelligent voice control. Responsive and intuitive, it helps you stay focused on the road ahead.

Remote Vehicle Control

Remote access to vehicle information, location, climate control and seat settings helps ensure the L8 is ready before the journey even begins.

Automatic & Remote Parking System

This system helps make parking effortless by identifying suitable spaces, controlling steering and speed, and parking with precision.

540° Panoramic Camera System

Using multiple cameras and ultrasonic radars working seamlessly together, the L8 delivers a comprehensive view of your surroundings, making parking and low-speed manoeuvres more precise, intuitive, and confidence-inspiring.

Advanced Driver Assistance Systems

Intelligent assistance technologies designed to reduce effort, enhance awareness and provide reassurance when it matters most.

Driver Awareness

Designed to increase your awareness of what's happening around the vehicle, providing added reassurance during everyday driving.

- Blind Spot Detection
- Surround View Monitor
- Rear Collision Warning
- Door Open Warning

Driver Assistance

Intuitive technologies that help you tackle longer journeys and challenging road conditions with greater ease.

- Adaptive Cruise Control
- Integrated Cruise Assist
- Traffic Jam Assist
- Lane Keep Assist

Parking & Manoeuvring

Systems that aid confident manoeuvring in tight spaces, making parking and reversing feel effortless.

- Auto Parking Assist
- Remote Parking Assist
- Track Reversing

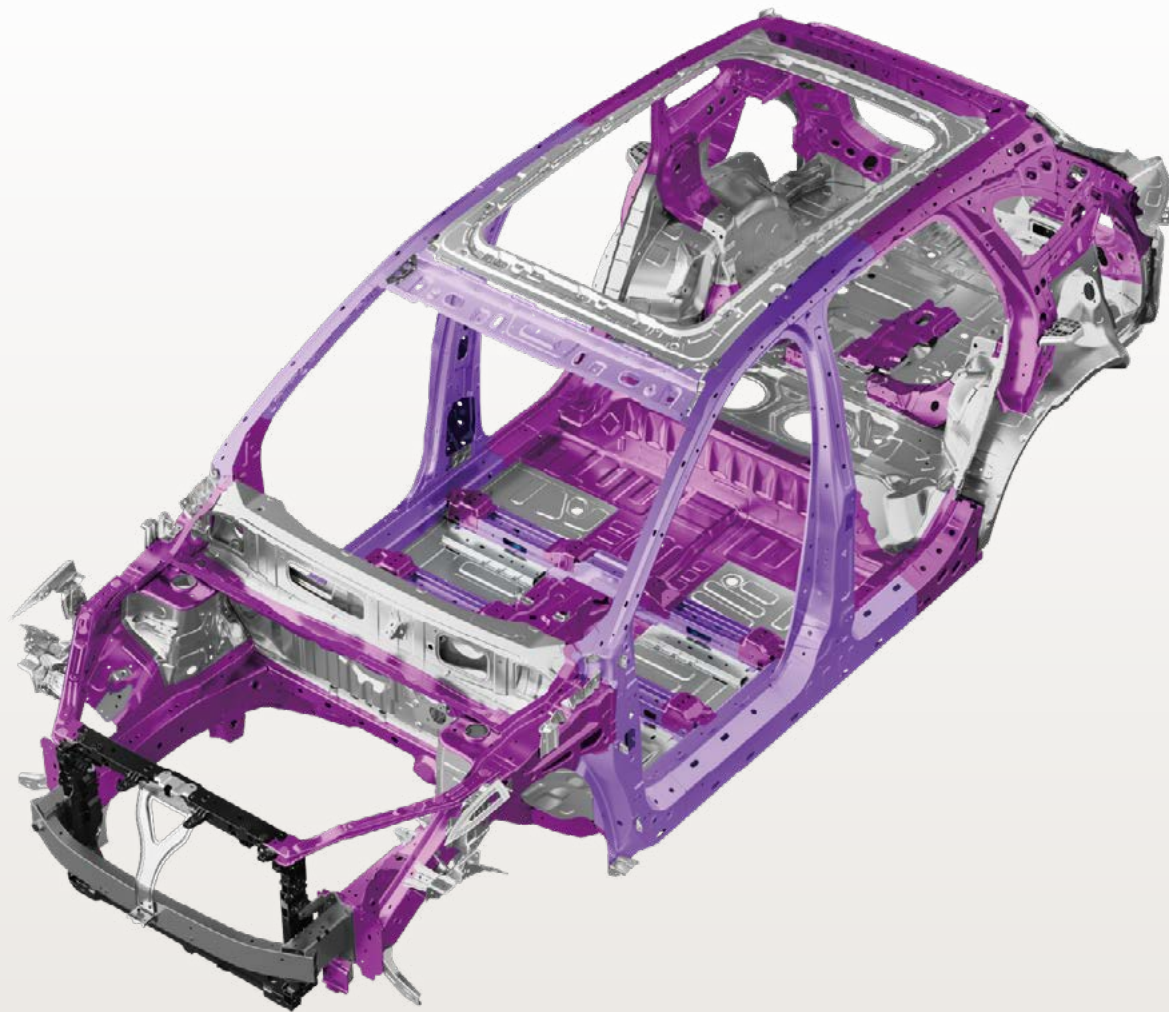

Safety Intervention

Additional safety assistants designed to help protect the driver, passenger and other road users in unexpected situations.

- Automatic Emergency Braking
- Forward Collision Warning
- Rear Cross Traffic Braking
- Emergency Lane Keeping

LEX Intelligent New Energy Platform

The L8's next-generation architecture is designed to enhance comfort, integrate intelligent technologies and connect you with your car throughout your ownership.

Reinforced Safety Structure

Engineered with high-strength steel to provide enhanced protection for everyone on board.

Designed for the Future

Engineered to evolve with modern mobility, supporting future technologies and capabilities.

Optimised Cabin Layout

Helps you make the most of the car's interior space, with extra leg room to create a more comfortable and practical cabin environment.

New Electronic Architecture

The intelligent foundation behind the L8's connected technologies, delivering faster responses, smarter connectivity and a more intuitive driving experience. Also featuring Over-the-Air (OTA) updates, keeping your vehicle up to date with the latest software enhancements.

Confidence by Design

10-Airbag Protection System

Up to 10 airbags help provide comprehensive protection throughout the cabin.

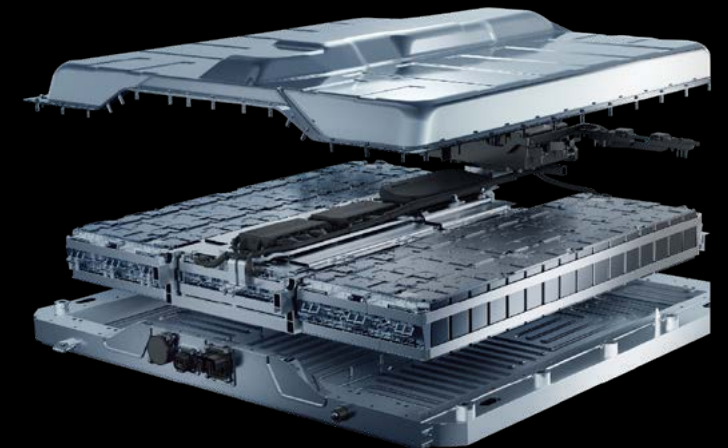

Reinforced Battery Protection

A strengthened battery structure designed to help protect the battery system in the event of an impact.

Weather-Resistant Battery System

Dual IP68/IPX9K protection helps safeguard the battery system against water, dust and other dangers.

Active Safety Protection

Intelligent safety systems designed to respond rapidly to potential risks, giving you added reassurance on every journey.
